Introduction

Raw Wastewater Pumping and Conveyance Facilities

TM 01	West Cary Pump Station Site Selection	1-1
TM 02	West Cary Pump Station, Force Mains, and Gravity Sewer.....	2-1
TM 03	Beaver Creek Pump Station Site Selection	3-1
TM 04	Beaver Creek Pump Station and Force Mains	4-1

Western Wake Water Reclamation Facility

TM 05	Water Reclamation Facility Site Selection.....	5-1
TM 06	Influent Wastewater Characteristics/Effluent Limits	6-1
TM 07	Not Used	
TM 08	Process Design/Mass Balance Pretreatment Evaluation	8-1
TM 09	Hydraulic Design	9-1
TM 10	Preliminary Treatment Facility	10-1
TM 11	BNR Process Tanks	11-1
TM 12	Secondary Clarifiers/RAS Pumping Facilities	12-1
TM 13	Blowers and Blower Building	13-1
TM 14	Effluent Filters	14-1
TM 15	UV Disinfection Facilities and Post Aeration Facilities	15-1
TM 16	Waste Activated Sludge Pumping/Thickening Facilities.....	16-1
TM 17	Foreign Solids Receiving/Aerated Holding Tanks/Biosolids Loading Facilities ...	17-1
TM 18	Biosolids Dewatering Facilities	18-1
TM 19	Scum Digestion Facilities	19-1
TM 20	Filtrate/Centrates Treatment Facilities	20-1
TM 21	Chemical Storage and Feed Facilities.....	21-1
TM 22	Non-potable On-site Reuse	22-1
TM 23	Standby Power Facilities and Electric Utility Service	23-1
TM 24	Odor Control Facilities.....	24-1
TM 25	Operations and Maintenance	25-1

Effluent Pumping and Conveyance Facilities

TM 26	Effluent Pump Station.....	26-1
TM 27	Effluent Force Main	27-1
TM 28	Effluent Discharge Structure Site Selection	28-1
TM 29	Effluent Discharge Structure	29-1

General

TM 30	Site Development and Utilities	30-1
TM 31	Not Used	

TM 32	Cost Estimate Methodology	32-1
TM 33	Instrumentation and Controls	33-1
